

Driving Tips From The War Amps DRIVESAFE™ Program

DRIVESAFE Tips

- Tailgated? Let them go by!
- Don't be panicked by other drivers.
- Skateboards, rollerblades and bikes are here – share the road.
- Slow down in bad weather.
- Be seen. Use your headlights night and day.
- Don't sightsee when behind the wheel.
- Anger is dangerous when on the road.
- Conversation distracting? Head it off politely.
- Don't expect other drivers to notice signals. Be responsible for your own safety.
- Don't be tempted to call or text – use a hands-free device or turn it off.

The numbers don't lie. Aggressive and careless driving can result in serious injury or even death. Remember The War Amps message: "DRIVESAFE!"

Safety List

Before you head out, make it a habit to check the following:

- Seat position
- Mirrors
- Windows clear
- Brake lights
- Turn signals
- Headlights
- Seatbelts
- Fuel
- Horn

And for long trips:

- Oil and fluid levels
- Tires properly inflated (including spare)
- Wiper blades and gauges
- Emergency kit
- Weather and road conditions
- Essential medical documents and contact information
